

MAINTENANCE PROGRAMS

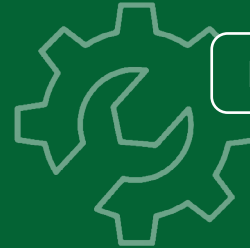

KEEP YOUR UNIT UP TO SPEED

BIOCOTECH'S ON-DEMAND BIOSPEED MAINTENANCE PROGRAMS

EFFICIENT

Maximize the efficiency of your BioSpeed waste digester's 24-72-hour composting capability.

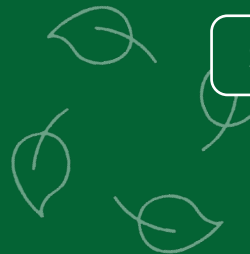

EXPERT ASSISTANCE

Benefit from the insights and assistance of seasoned professionals and technicians.

RELIABLE

Our maintenance programs ensure consistent performance from your unit and reduced downtime.

SUSTAINABLE

Take full advantage of the most impactful and environmentally responsible solution to managing organic waste on-site.

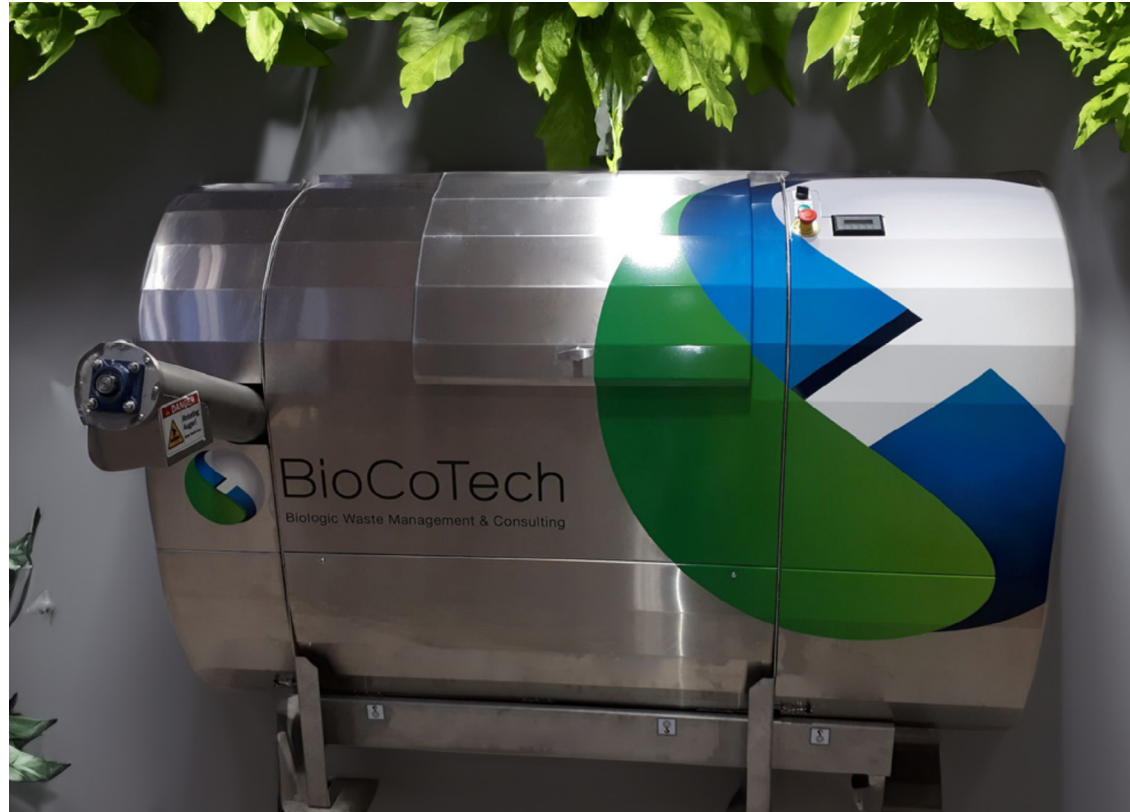

YOUR PARTNER IN WASTE MANAGEMENT SUCCESS

GROUNDBREAKING DESIGN, FUNCTIONALITY & PURPOSE

A certified BCTA technician is highly recommended for all service and maintenance processes in order to guarantee and extend the longevity of the unit.

At Biocotech, we've harnessed innovation to tackle waste management challenges head-on.

Our state-of-the-art industrial digesters can transform organic waste into nutrient rich organic fertilizer within 24-72 hours, setting new efficiency and sustainability standards.

By signing up for our maintenance program(s) we can support your business needs for the duration of your BioSpeed Unit's lifetime:

- ✓ Mechanical and motor component inspection.
- ✓ Gear box revision, re-greasing and component replacement.
- ✓ Electrical box clean-up and inspection.
- ✓ Machinery damage and wear inspection.
- ✓ Ventilation system cleaning and inspection.
- ✓ Full interior and exterior inspection and clean-up.

STARTER
